Apex beat - Wikipedia

Atrial fibrillation (or flutter) is a type of arrhythmia (irregular heart beat) that usually exhibits as a fast heart rate of over 100 bpm. The pulse can be irregular as well. Sometimes, with Afib, the heart beat feels like it is racing, fluttering, or even too slow.

How to Check Your Pulse: 10 Steps (with Pictures) - wikiHow
Since CO 2 bonds with a person's hemoglobin, replacing oxygen, the pulse oximeter cannot distinguish between the two. It might show an oxygen saturation level of 95 percent, but 15 percent of the hemoglobin is carrying carbon dioxide instead of oxygen. This is why a pulse oximeter is not the best tool for measuring oxygen saturation in heavy ...

How to Interpret Pulse Oximeter Readings – One Beat Medical

A drum beat or drum pattern is a rhythmic pattern, or repeated rhythm establishing the meter and groove through the pulse and subdivision, played on drum kits and other percussion instruments. As such a "beat" consists of multiple drum strokes occurring over multiple musical beats while the term "drum beat" may also refer to a single drum stroke which may occupy more or less time than the ...

Drum beat - Wikipedia

2. the beat of the heart as felt through the walls of a peripheral artery, such as that felt in the radial artery at the wrist. Other sites for pulse measurement include the side of the neck (carotid artery), the antecubital fossa (brachial artery), the temple (temporal artery), the anterior side of the hip bone (femoral artery), the back of the knee (popliteal artery), and the instep ...
